PlaySteps for Developing Kids

(effective July 1, 2013 formerly Fourt Therapy Center)
849 Menlo Avenue
Menlo Park, CA 94025
650-323-0805

www.play-steps.com
jeff-ot@sbcglobal.net

PlaySteps for Developing Kids is a private clinic offering occupational therapy services to children in the community who may have special needs related to sensory and/or motor development, including limited gross or fine motor coordination and sensory processing disorder. We provide intervention with a particular focus on sensory integration therapy and developmental hand therapy. Most therapy is provided at our clinic in Menlo Park, although we also provide on-site services at schools and preschool programs when needed.

Development is CHILD'S PLAY!

10011 N. Foothill Blvd., Suite 109,
Cupertino, CA 95014
408-865-1365

dicp07@yahoo.com

Development is CHILD'S PLAY! is an occupational therapy facility with highly skilled therapists, specializing in pediatrics and sensory integration. Our focus is to help infants and children and their families succeed in meeting life's challenges. Services are provided for children with sensory processing disorders, delays in development, or motor coordination difficulties that may contribute to problems in motor skills and daily living tasks including eating, playing, sleeping, dressing, or toileting; behavioral and emotional responses; and communication, learning, or social interactions.
